Department of Defense Base Structure Report FY 2010 Baseline

I. Introduction

The Department manages a global real property portfolio consisting of more than 539,000 facilities (buildings, structures, and linear structures) located on nearly 5,000 sites covering over 28 million acres. The Base Structure Report (BSR) – FY 2010 Baseline represents a consolidated summary of the DoD’s real property inventory (RPI) as reflected in Military Departments’ and Washington Headquarters Services’ (WHS) native real property databases as of September 30, 2009. The annual reporting of real property assets (facilities and land) to the Secretary of Defense is in accordance with title 10, U.S. Code, section 2721, “Real Property Records.” As established by Executive Order 13327, each year the Department of Defense (DoD) submits real property data at the constructed asset level to the General Services Administration (GSA) for the Federal Real Property Profile (FRPP).

The Executive Order states “The policy of the United States is to promote efficient and economical use of America's real property assets and to assure management accountability for implementing federal real property management reforms.” A major initiative within DoD is the implementation of the Base Realignment and Closure (BRAC) 2005 recommendations which are due to be completed by September of 2011. In meeting the BRAC implementation requirements, we are reorganizing our real property infrastructure to more efficiently and effectively support our military forces, increase operational readiness, and facilitate new business processes.

The BSR – FY 2010 provides a comprehensive listing of all sites owned or managed by DoD (inclusion criteria provided in Section III of this report). A site is defined in DoD as a specific geographic location where the DoD owns or manages land, buildings, structures, or linear structures. Sites are assigned to military installations. An installation is commonly referred to as a base, camp, post, station, yard, center, homeport facility for any ship or other activity under the jurisdiction, custody, or control of DoD. A Portfolio Summary of DoD and State Army National Guard real property sites and real property assets (buildings, structures, linear structures, and land) is provided in Section IV of this report. Other pertinent information such as component and the name of the nearest city is also included in each listing.

For any questions concerning this report, please send an email message to: BSR@osd.mil. Electronic copies are available at <http://www.defenselink.mil/pubs> under Publications > Reports.

Department of Defense Base Structure Report FY 2010 Baseline

II. Content and Organization

This report is organized as follows:

- Section IV – Provides a portfolio summary of DoD assets and Army State National Guard assets
- Section VII – Provides a summary of the sizes of sites in the DoD portfolio
- Section VIII – Provides summary statistics for sites in the DoD inventory.
- Section IX – Provides summary statistics for sites for each Military Department and WHS
- Section X – Provides summary statistics for sites in the Army National Guard portfolio that are managed by the States and Territories.

The summary statistics in Sections VIII thru Section X provides information on sites to include the site name, the component (Active, Guard, or Reserve), BRAC identification code, the name of the nearest city, the number of buildings by legal interest, number of acres, the Plant Replacement Value (PRV) in \$ millions, and the authorized personnel counts (military, civilian, and other where the information was available). Other personnel include non-appropriated employees, government contractors, or foreign nationals.

Based on information supplied by the Army, the Army National Guard sites and assets are divided between the DoD portfolio (Section VIII - DoD Inventory and Section IX - Army Inventory) and the State portfolio (Section X - State / Territories Army National Guard Inventory) sections of the report. Section IV includes an overall summary of the State Army National Guard assets. The sites and assets for the Army, Navy, Air Force, Marine Corps, and WHS are included in the DoD portfolio and in the corresponding component portfolio. As compared to the BSR – FY 2009 Baseline, the total number of DoD sites decreased by 580 sites. This change is mainly due to the method used to distinguish DoD and State Army National Guard sites.

Plant Replacement Value (PRV) represents the cost to design and replace an existing facility using current construction standards and codes. The total PRV for DoD facilities changes from year to year as a result of a combination of factors. The majority of changes this year are due to economic factors, not to changes in the DoD inventory of facilities. For example, over 90 percent of the PRV changes between the previous BSR Baseline of 2009 and this BSR baseline can be attributed to an increase in construction costs, represented in the PRV formula as replacement unit cost. Those industry-driven costs increased an average of 6 percent for the types of facilities DoD owns or maintains.

Department of Defense Base Structure Report FY 2010 Baseline

The standard DoD formula for calculating plant replacement value is:

$$\text{Plant Replacement Value} = \text{Facility Quantity} \times \text{Replacement Unit Cost} \times \text{Area Cost Factor}^1 \times \text{Historical Records Adjustment}^2 \times \text{Planning and Design Factor}^3 \times \text{Supervision Inspection and Overhead Factor}^4 \times \text{Contingency Factor}^5.$$

Replacement unit cost may also change if an asset's function is changed to a facility type that is more expensive to build, or if an asset is expanded. Five factors are used to adjust PRV to account for the many influences on plant replacement value. Year to year, the smallest contributor to change in PRV are new acquisitions and removal of old assets from the inventory.

It is important to note the following parameters for the content of this report:

- **Timeliness.** While the physical base structure may change throughout the year (new construction, demolitions, etc.), the BSR is an annual “snapshot” of the DoD’s physical plant, as recorded on September 30, 2009. The sites listed may be in various stages of activity, including unused or awaiting disposal. Due to the legalities involved in transferring deeded property, individual Military Service inventories may still include a legal property record long after the decision has been made to transfer that asset to another organization.

- **Mode of View.** For the purpose of this report, each entry is defined as a site at a specific location with a name, based on the Real Property Site Unique Identifier name.

- **Display Criteria.** This report includes specific information on those sites meeting predetermined size and value criteria. To qualify for entry in the published report, a DoD site located in the United States must be larger than 10 acres **AND** have a PRV greater than \$10 million. If the site is located in a foreign country, it must be larger than 10 acres **OR** have a PRV greater than \$10 million to be shown as a separate entry. To preserve the comprehensiveness of the report, sites that do not meet these criteria are aggregated as an “Other” location within each state or country. Since Army National Guard State sites tend to be smaller, sites that are larger than five

¹ A geographic location adjustment for costs of labor, material, and equipment.

² An adjustment to account for increased costs for replacement of historical facilities or for construction in a historic district; the current value of the factor is 1.05.

³ A factor to account for the planning and design of a facility; the current value of this factor is 1.09 for all but medical facilities and 1.13 for medical facilities.

⁴ A factor to account for the supervision, inspection, and overhead activities associated with the management of a construction project; the current value of the factor is 1.06 for facilities in the continental US (CONUS) and 1.065 for facilities outside of the continental US (OCONUS).

⁵ A factor to account for construction contingencies; the current value of the factor is 1.05.

Department of Defense Base Structure Report FY 2010 Baseline

acres **AND** have a PRV greater than \$5 million are shown. State sites not meeting this criteria are aggregated as “Other” for each state.

- **Personnel Data.** Personnel data is included in this report ONLY as a means of showing relative magnitude and should not be construed as validated Military Department Manpower Data. Personnel data was collected from multiple sources, including inputs from the individual Military Services personnel databases. Since personnel totals reflected in this report attempt to show all personnel regardless of Military Service affiliation assigned to individual sites or locations, totals should not be confused and viewed as representing only individual Military Service total strength. It is also possible that totals in this report may not reflect the actual population at a particular site. Detailed personnel questions should be addressed to the appropriate Military Service manpower or personnel offices.

III. Data Sources, Reporting Criteria, and Definitions

The inventory data included in this report is extracted directly from the Military Services’ authoritative real property inventories as submitted to the Office of the Secretary of Defense (OSD) Facilities Assessment Database (FAD): Army - Headquarters Installation Information System (HQIIS), Navy and Marine Corps – internet Navy Facilities Assets Data Store (iNFADS), and Air Force - Automated Civil Engineer System - Real Property (ACES-RP). WHS provided their real property inventory from their internal database.

This report does not attempt to replicate all the details included in the source databases. Instead, this report provides a summary view of DoD sites using common elements that should answer most questions. Section IV of this report summarizes DoD’s real property inventory portfolio to include all interest types DoD holds in an asset such as federal government owned, government/private agreement, leasehold, state owned, foreign owned, and owned by a private entity. Criteria used for each column in sections VIII, IX, and X of the BSR are explained below:

– **Site:** Physical (geographic) location that is or was owned by, leased to, or otherwise possessed by a DoD Component. Each site is assigned to a single installation. A site may exist in one of three forms: land only - where there are no facilities present; facility or facilities only - where there the underlying land is neither owned nor controlled by the government; and land and facilities.

– **BRAC 2005:** Indicates BRAC 2005 action code (C = Closure or R = Realignment). At sites marked C, all missions of the installation will cease or be relocated. All personnel positions (military, civilian, and contractor) will either be eliminated or relocated,

**Department of Defense
Base Structure Report

except for personnel required for caretaking, conducting any ongoing environmental cleanup, and disposal of the base, or personnel remaining in authorized enclaves. At sites marked R, action will be taken to both reduce and relocate functions and civilian personnel positions, exclusive of a reduction in force resulting from workload adjustments, reduced personnel or funding levels, or skill imbalances.

- **Component:** Designates the primary DoD Component for the owner/reporter of a site, either Active, Guard, or Reserve.
- **Name Nearest City:** Identifies the name of the city in which the real property assets are located or the name of the city nearest the assets. The nearest city shall be in the same county as the asset
- **Buildings:** A roofed and floored facility enclosed by exterior walls and consisting of one or more levels that is suitable for single or multiple functions.
- **Structures:** A facility, other than a building or linear structure, which is constructed on or in the land (e.g., tower, storage tank, wharf, pier).
- **Linear Structures:** A facility whose function requires that it traverse land (e.g., runway, road, rail line, pipeline, fence, pavement, electrical distribution line) or is otherwise managed or reported by a linear unit of measure at the category code (CATCODE) level.

Note on Buildings Information: Buildings are classified according to the DoD Real Property Classification System (RPCS). State-Owned building/square footage is applicable to Army National Guard assets only.

- **Buildings Owned Count:** Number of buildings owned by the Federal Government.
- **Buildings Owned Square Feet (SqFt):** Building square footage for buildings owned by the Federal Government.
- **Buildings State Owned Count:** Number of buildings owned by the State.
- **Buildings State Owned Square Feet (SqFt):** Square footage for buildings owned by the State.
- **Buildings Leased Count:** Identifies the number of leased buildings.

**Department of Defense
Base Structure Report
FY 2010 Baseline**

– **Buildings Leased Square Feet (SqFt):** Reflects the total square footage that is leased.

– **Buildings Other Count**

- In Sections VIII and IX, the number of buildings where the legal interest is other than owned or leased.
- In Section X, the number of buildings where the legal interest is other than State-owned.

Other legal interest includes easement, environmental liability, Government/Private Agreement, Lesser Interest as defined by a legal instrument (e.g., permit, right of entry, Status of Forces Agreement), owned by foreign government, owned by private entity, public domain, or any other legal interest.

– **Buildings Other Square Feet (SqFt):**

- In Sections VIII and IX, the total square footage in buildings where the legal interest is other than owned or leased
- In Section X, the total square footage in buildings where the legal interest is other than State-owned.

– **Acres Owned:** Identifies the total number of acres owned by the Federal Government (Sections VIII and IX).

– **State Owned Acres:** Identifies the total number of acres at sites owned by the State (Section X).

– **Total Acres:** Identifies the total number of acres at the listed site. It includes public land, land owned by other federal agencies, and acreage of foreign land used by DoD.

– **PRV (\$M):** Indicates the total Plant Replacement Value (PRV) for all facilities (buildings, structures, and linear structures). The value represents the Military Service or WHS calculated cost to replace the current physical plant (facilities and supporting infrastructure) using today's construction costs (labor and materials) and standards (methodologies and codes).

Note on Personnel Data: This information is provided ONLY to provide a level of magnitude when comparing sites. The Military Services do not maintain their personnel data in direct relation to their real property inventory. While every effort was made to match the personnel strengths to the appropriate site, the population may not reflect the actual population of the site. Detailed personnel questions should be addressed to the appropriate Military Service manpower or personnel offices.

- **MIL:** Identifies the military personnel authorized for the site to include Active, Guard, and Reserve personnel, regardless of Military Service affiliation.
- **CIV:** Identifies the DoD authorized civilian personnel identified for the site, regardless of Military Service affiliation.
- **OTHER:** Identifies other civilian personnel identified for the site (e.g., Non-Appropriated Funds (NAF), direct and indirect foreign nationals, contractor personnel).

IV. Portfolio Summary

The worldwide real property portfolio managed by the DoD encompasses a footprint that includes all 50 states, seven U.S. territories, and 38 foreign countries. The majority of the foreign sites are located in Germany (218 sites), Japan (115 sites), and South Korea (86 sites). Locations of DoD sites by Military Service and Agency are depicted in Figure 1.

Land Portfolio

DoD manages over 28.3 million acres of land worldwide. More than 97% of that land is located in the United States or U.S. Territories. The majority of land controlled by the Department (70%) is government owned. The Army controls the largest percentage of the Department's land (50%) followed by the Air Force (34%). Figure 7 and Table 8 depict the land portfolio.

State Army National Guard Portfolio

The Army, in collaboration with the National Guard Bureau, manages domestic real property with the States. All Army National Guard sites, both DoD and State, are summarized in Table 9. Facilities and land on DoD sites are included in the summaries above and in Sections VIII and IX. All assets located on the Army designated State Army National Guard sites are included in this summary and in Section X.

The State portfolio consists of more than 53,000 facilities (valued at \$29 billion) and 1.8 million acres located on more than 2,800 sites in the United States and Territories. Table 10 shows the number of sites and assets, plant replacement value by type (buildings, structures, linear structures), and number of acres by location. The asset count and plant replacement value of the facilities by Facility Class based on the DoD RPCS are shown in Table 11. The States or Territories own 1,776,221 of the 1,830,568 acres.

BRAC 2005

DoD uses the BRAC process to reorganize its real property infrastructure to more efficiently and effectively support its forces, increase operational readiness and facilitate new ways of doing business. The process, authorized by Public Law 101-510, resulted in the BRAC 2005 Commission's recommendations which will result in the closure of 185 sites and realignment at an additional 135 sites. Figure 8 shows the number of sites affected. The Department has until September 15, 2011, to complete implementation of the BRAC 2005 recommendations.

V. Summary of Changes

- Section IV – Portfolio Summary: Based on information supplied by the Army, the Army National Guard sites are designated as being part of either the DoD portfolio (Section VIII - DoD Inventory and Section IX - Army Inventory) or the State portfolio (Section X - State / Territories Army National Guard). The assets at the Army National Guard sites are included in the DoD or State portfolio based on the supplied designation. A portfolio summary of the State Army National Guard assets is provided in Section IV. As compared to the BSR – FY 2009 Baseline, the total number of DoD sites decreased by 580 sites. This change is mainly due to the method of distinguishing DoD and State Army National Guard sites.
- Section VIII – Total DoD Inventory: Ongoing refinement of the site registry process resulted in the following Site Name changes:
 - NAS North Island is NS Coronado
 - NAVSUBASE San Diego is NS Point Loma
 - MCLB Barstow Nebo Area is MCLB Barstow

VI. Conclusion

The Base Structure Report is designed to provide the reader with a snapshot view of the vast portfolio of real property maintained by the Department of Defense. Our physical infrastructure provides the critical framework supporting our military forces globally. While the Department continues the transformation of its business processes, executes DoD Recovery Act projects, and implements the BRAC 2005 and Global Defense Posture portfolio realignments, the location and quality of our facilities continue to be our key focus as a critical component of the Department's readiness. The Department embraces modern asset management techniques and best business practices to enhance the vast physical infrastructure. The Department's vision for transformation is reflected in this report as sites are closed, restructured, and realigned to more efficiently support the requirements of the Department of Defense. Our network of quality operational and support facilities located at sites around the world are core to U.S. defense capability, and are inseparable element of the nation's military readiness and wartime effectiveness.
